

Please Update Your FEC Account Information

New e-Business online services available *free* April 1, 2009.

Please fill in the top portion of the coupon below to update your account information. This is needed in case we need to contact you after a severe storm.

Also, effective April 1, FEC members may use the new online services to make a payment with a debit or credit card, review their capital credit allocations over the years, look at their billing records for the previous 12 months, and more.

If you are interested in using the online e-Business services, just follow the directions on the application below and return it to the office in Chillicothe. And, best of all...it's FREE!

As a member of FEC, you will need to create a password and use your account number, or member number, to gain access to your personal records. If you wish to use a credit card at times, you may also be able to store your credit card information. Only the last four numbers of the card will be visible, so you won't have to look up the number every time you use the e-Business program.

The e-Business Member Login is protected by SSL technology, verified by Geotrust.

FARMERS' ELECTRIC COOPERATIVE ACCOUNT UPDATE
