

Electrical Safety Activity

Energy Explorers

Instructions:

Mark the four electrical hazards shown below with an "X." Use the safety tips to identify the hazards. Share these tips with your family and friends, and remember to always play it safe near electricity!

Electrical Safety Tips:

- Do not overload electrical outlets. Overloaded outlets are a fire hazard!
- Keep liquids and drinks away from all electronics, like TVs, computers and gaming consoles. If the liquids spill, they could cause shock or fire!
- Never place items like clothing or toys on top of a lamp! Leaving flammable items near lightbulbs creates a fire hazard.
- Never leave electrical cords in an area where people walk! The exposed cord creates a tripping hazard.
